HSS Steering Committee Meeting Minutes, Tuesday October 5, 2021.

The monthly Steering Committee Meeting was held on Tuesday October 5, 2021 at the Round Table Pizza Restaurant, 1175 Baker Street Costa Mesa. The meeting was called to order at 6:05 PM by President Mike Costello. Attendance included:

Henry Smith III, Vice President	Kevin Koch, Safety Coordinator.
Mike Gaczowski, Publisher.	Sid Hood, Grounds Keeper.
Don Wittenberg, Past Treasurer.	Fred Hesse. Secretary and Editor.
David and Jordan Lapin (Guests).	Ted and Terry Broberg (Guests).
Rob Askegaard, Club Photographer.	

- Mike Gaczowski brought up the problem of multiple distribution lists used for club communication, newsletter distribution, non-member distribution, and historical membership. A discussion was held in which the following five sub-lists plus the Master Name List were defined. Mike Costello felt that Joni Whitsitt should maintain this file, and distribute it as needed. After the meeting, Fred Hesse prepared the following details of the six lists, and E-mailed them to Joni.
1. Master Name List. (Membership). These are current paid members. They should receive monthly newsletters by E-mail or USPS, and special announcements sent as E-mail blasts.
 2. Officers. This is the list that appears on the last page of each newsletter, and includes elected and volunteer positions. Maybe Steering Committee officers should be a separate subset?
 3. Hard copy newsletter recipients. Members who have paid extra for a USPS delivered newsletter. I have been performing this task of copying (in black and white, not color) and mailing these newsletters.
 4. Non-member distribution. These are people that we wish to send newsletters, including AMA headquarters, AMA District Vice President., Assistant District VP, Editors of local clubs, City officials, and persons who need special communication. John Rittenhouse should have his name added to this group as a non-member but an active contributor to the club operations. I have been maintaining this list but will provide it to you.
 5. Past members. Identified by the last year they were members. No one should be deleted from this list.
 6. Past glider flyers. This is a group that John Rittenhouse has composed, and is important to maintain in the event that glider flying is reinstated at Fairview Park.
- Mike Costello will not be available to attend the November 2 meeting. It was determined that the general membership should vote on moving the next General Meeting to November 9, at 7 PM. Note that the November meeting involves the election of HSS Officers for 2022.

The meeting was closed at 6:50 PM.

Respectfully submitted by Fred Hesse, Secretary.

One Design Challenge Results.

The One Design Challenge posed by the Black Sheep Demonstration Squadron was held on October 17, 2021, at the Grassy Knoll area of the Sepulveda Flood Basin in San Fernando Valley. The Sunday morning was perfect weather, calm and sunny. The one design used for this competition was the Sig Cub, a 23 inch span rubber powered stick fuselage kit that cost \$20. The competition was for longest flight time, and also the cumulative score of the teams from Black Sheep Squadron and Harbor Soaring Society.

The HSS team was made up of Mike Costello, Emerald Herrington, John Anderson, Kevin Koch, Jim Peterson, Henry Smith III, Henry Smith IV, Jordan Lapin, Rob Askegaard, and Fred Hesse. Unfortunately, only 7 HSS members participated. Following is the complete report from Dave Gee. Photos courtesy of Rob ASskegaard.

Club Challenge at the infamous Grassy Knoll FF field!

A national postal meet for Sig Cub models was looming, so it was decided to have the Harbor Soaring Society and the Black Sheep Squadron meet for a "duel at the knoll". This was a fairly long drive for some. Competitors arrived from Ventura and Orange counties. The nationwide interest in this event was substantial enough to cause shortages of Cub kits, despite Sig making extra production runs. Both clubs scrambled to get enough for their members.

The event was run without a formal CD, like many of our Grassy Knoll events. This avoids trouble by removing the authority figure and replacing him with a scoresheet and pen instead. Nobody complains because there is nobody to complain to!

Doughnuts were provided, and the flight line had comfortable shade. Weather was excellent: mild temps with slight breeze but no lift to be found. At least the models didn't fly away! There was a fine bunch of pilot mingling and exchanging questionable advice. Free Flight experience levels varied from expert to 1st timer, but virtually all of the Cubs flew nicely, and many flew exceptionally well. The postal rules called for a single best time with unlimited attempts.

There didn't seem to be any single "best setup" for these supposedly-identical planes. Some pilots used much larger motors and had similar flight times to the small-motor planes. Early arrivals found that the moist air made wing-coverings saggy but it soon dried out and the planes flew OK regardless. Only a few models got "treed" and all were rescued without damage.

The top 3 finishers received gift certificates from Smith Brothers Hobby Shop in Northridge.

HSS Christmas Party and December General Meeting

The December meeting will be Tuesday December 7 at Woody's Diner, 10136 Adams Avenue. Phone is 714-965-4555. This is located on the Southeast corner of Adams and Brookhurst, in Huntington Beach. We will have a semi-private back room, as we had last year. There is a full bar. RESERVATIONS SHOULD BE MADE with Henry Smith III (714-322-6537) as we did last year.

Come join us to celebrate Christmas, enjoy the camaraderie of club members, and install our HSS officers for 2022. We will have a spectacular raffle of neat planes and stuff.

Help Find the Owner of This Plane

A recent E-mail from Tye McClain.

I was talking to a guy at a park we fly in in Las Alamitos and I told him that I had a Bird Of Time I wanted to give to a good home. When I gave it to him, he brought me a composite fuselage that he no longer wanted. Then after he left, I learned that this fuse had been left at Fairview Park and that this fellow had picked it up and never tried to get it back to the owner.

So now I have it, and I'm willing to give it to the rightful owner. if you folks don't know who lost it in Costa Mesa then I guess I'll try to find a wing. It looks like fun! but I want to try to find the owner first. I'll send a picture next

Huntington Beach Air Show

The following photos were contributed by Rob Askegaard, our club photographer. He was fortunate to attend the Friday October 1 event, as it was cancelled the following day due to an oil spill off shore. Thanks, Rob.

The U S Air Force F-16 Thunderbirds opened the show. This was a surprise appearance.

Next, the Canadian CT-114 Tutor Snowbirds did their nine plane demonstration.

Fed Ex Boeing 757 did a slow fly by with everything hanging out.

Huntington Beach Air Show (Continued)

One of the ear splitting F-35's.

MV-22 Osprey doing a mode change.

The feature group above and right was the U S Marine Corp Blue Angels, flying the F/A-18E Super Hornet. They were accompanied by their Support C-130, "Fat Albert".

Huntington Beach Air Show (Continued)

Above and right is a peculiar assembly of Sukhoi parts. It's two aerobatic reciprocating engine powered airframes with a jet engine in the middle.

This "dirty" pass is made by the Orbis McDonnell DC-10-30. This is an interesting aircraft labeled "Flying Eye Hospital". The Orbis Flying Eye Hospital is unlike any plane you've seen before. A state-of-the-art teaching facility complete with operating room, classroom and recovery room. The Flying Eye Hospital specializes in cataract surgery. This was once a cargo plane, and the interior was completely transformed to be a flying hospital. this amazing aircraft has been an example of the marriage between medicine and aviation since 1982.

Next Meeting – Live in Person!

See page 7 for special information for the December 9 meeting and Christmas Party.

For normal meetings live in person HSS General Meetings have been reinstated. Hooray! Invitation To Members For Contributions To The Plane Rap Newsletter

Your editor would love to hear from club members. If there is anything you would like to share with the rest of us I would like you to send it to me. I will add it to the next newsletter. My favorite things to publish are items sent in by members!! These can be anything like reviews of your plane or equipment, links to good videos, links to articles, and things you have built or created. Bad spelling and/or grammar gladly accepted. Anything from a picture with a caption to a full blown build/review article is good. Letters-to-the-Editor are always welcome as well. Tell us what you think. Please help make the newsletter and website more interesting with your submissions. Embarrassing pictures/videos are the best. I look forward to hearing from you.

Fred Hesse - Plane Rap Editor - fhesse@socal.rr.com.

Photos of Your Planes

We are very fortunate to have Rob Askegaard as our club photographer. Rob has a high degree of talent, and supplements that with an excellent camera. His well composed and very realistic photos taken at ground level and his remarkable stop action in-flight pictures are superb. Rob's contributions are what make our newsletter really spectacular. We try to feature everyone and their planes, so if you haven't seen yourself in our newsletter, look for Rob just about any morning and pose for him. Anyone who wishes a high quality print or jpg file of their favorite plane should contact Rob, or your editor. Phone and E-mail information is shown on the last page of this newsletter.

Free Flight Models at the Park

Emerald Herrington reports he flies rubber power free flight in Fairview on Sunday mornings. He would appreciate company. Starting around 7:30 or so until 10:00.

HSS Sponsors

The following companies are proud sponsors of Harbor Soaring Society. They give us special offers, and make contributions to our monthly raffles. In return, please support them, and mention that you saw them advertised in the HSS Plane Rap newsletter.

AirPixel Technologies/FrSky Distributor

I just wanted to reach out on behalf of FrSky, as we are working directly with the manufacturer to do some community outreach to aviation clubs that are close to us here in Southern California, as provided by the AMA Club list. If anyone who happens to be a part of your club or organization is looking to purchase any number of **FrSky radios, receivers, gimbals, or other FrSky products**, we would love to assist in fulfilling these needs. During this outreach, we will be **lowering our prices to assist local clubs** in obtaining the necessary gear to get members flying as soon as possible. If you or anyone in your club is looking for products of this variety to assist in your RC aspirations, please do not hesitate to contact us via email or at our office phone number, which I will attach below, where we can answer questions regarding sales and warranty questions, and assist with any and all FrSky product related technical difficulties that you or your club members might run into.
